General information

Article number : 37526559 Kai unisex lightweight GRS recycled circular jacket

Description : The Kai unisex lightweight GRS recycled circular jacket - the biggest positive impact maker in terms of environmental performance. More sustainable exploration starts with better design - a design with less impact on the environment. The total average reduction in impact already made with 1 jacket is as follows: 22% eco-costs, 17% carbon footprint and 32% CED. Made of 130 g/m² 200T taslan fabric of GRS certified recycled nylon, the Kai is a classic lightweight, fully seam sealed jacket to ensure enhanced water resistance. Bad weather hardly stands a chance with this 5000 mm water protection and the 5000 g/m² breathability brings comfort. Developed with a waistband for a more flattering fit, waterproof zippers (including the pockets), and the jacket is also packable into the lower inside back pocket. Our Elevate clothing is designed for branding, but we are also aware that a (company) logo on clothing can shorten the lifespan of garments. Therefore, the Kai has been designed with a removable "logo" sleeve patch. The jacket can be returned via a take-back program featuring a QR code that provides additional information. 200T Taslan of 100% GRS certified recycled nylon, 130 g/m², Lining, 210T taffeta of 100% GRS certified recycled nylon, 65 g/m².
